Voice-First Paid Calling App

Complete Low-Fidelity Visual Wireframe Layout Document

---

1. Updated product model

The application connects customers with verified female hosts through paid voice calls.

After three completed voice-call minutes, the customer can request video. The host can accept or reject the request.

```
Customer adds money
        ↓
Views online hosts
        ↓
Starts voice call directly
        ↓
Host accepts
        ↓
Voice call continues for 3 minutes
        ↓
Video option unlocks
        ↓
Customer requests video
        ↓
Host accepts or rejects
        ↓
Call continues
        ↓
Customer is billed
        ↓
Host earns money
        ↓
Customer rates host
```

There is no direct video-call option.

---

2. Major features

Customer features

- Mobile OTP login
- Preferred-language selection
- Ranked online host list
- Direct voice calling from Home
- Video request after three voice minutes
- Add money in Indian rupees
- Per-second voice and video billing
- Call history
- Rating and reporting
- Refund request
- Refer and earn
- Wallet and referral earnings
- Customer support

Host features

- Mobile OTP registration
- Identity verification
- Public profile creation
- Language selection
- Online and offline status
- Accept or reject voice calls
- Accept or reject video-upgrade requests
- Voice and video earnings
- Rank-based earning percentage
- Host leaderboard
- Refer and earn
- Earnings and withdrawals
- Withdrawal buffer
- Call history
- Customer reporting

Admin website modules

```
Dashboard
Hosts
Payments
Refunds
Reports
Settings
```

3. Features excluded

- No direct video calls
- No virtual coins
- No gifts
- No text chat
- No followers
- No social posts
- No voice rooms
- No games
- No stories
- No group calls
- No subscriptions
- No complex host-profile screen before calling

4. Host ranking and earnings model

Host ranking must be based on service quality, not appearance.

Suggested ranking factors

Factor	Weight
Customer rating	30%
Completed calls	20%
Call acceptance rate	15%
Returning customers	15%
Recent online availability	10%
Low cancellation rate	5%
Low complaint rate	5%

Host rank levels

```
Bronze
Silver
Gold
```

```
Platinum
Diamond
```

Example payout model

The customer call price can remain the same for all hosts. The host payout percentage increases with rank.

Host rank	Host payout	Platform share
Bronze	60%	40%
Silver	65%	35%
Gold	70%	30%
Platinum	75%	25%
Diamond	80%	20%

Example:

```
Customer pays ₹100

Bronze host earns ₹60
Silver host earns ₹65
Gold host earns ₹70
Platinum host earns ₹75
Diamond host earns ₹80
```

The admin can configure these percentages.

Rank rules

- Rank is calculated periodically.
- Only completed, valid calls count.
- Fake ratings do not count.
- Very short calls have less ranking weight.
- Serious reports reduce rank.
- Repeated call rejection reduces rank.
- Returning customers improve rank.
- New hosts receive temporary visibility.
- Rank changes should display clearly to the host.
- Reduced rank must include a visible reason.
- Host payout changes apply from the configured effective date.

---

5. Referral model

Both customers and hosts can refer new users.

Customer referral

A customer can:

- Share referral code
- Share referral link
- View invited users
- View successful referrals
- View referral reward
- Receive reward after referral conditions are completed

Example customer reward:

```
Existing customer earns ₹25 wallet credit
New customer receives ₹25 wallet credit
```

Suggested qualification:

```
New customer registers
        ↓
Adds minimum required money
        ↓
Completes first paid call
        ↓
Referral reward is released
```

Host referral

A host can refer:

- New customers
- New hosts

Example host rewards:

```
Refer customer:
Reward after customer completes first paid call

Refer host:
```

```
Reward after referred host is approved
and completes minimum valid calls
```

Referral rewards should initially appear as pending.

```
Referral registered
        ↓
Qualification pending
        ↓
Fraud checks completed
        ↓
Reward released
```

38. Final approval checklist

Customer app

- [ ] Customer can call directly from Home.
- [ ] No host-profile page is required before calling.
- [ ] No direct video button exists.
- [ ] Every call starts with voice.
- [ ] Video unlocks only after three connected voice minutes.
- [ ] Host approval is required before video starts.
- [ ] Preferred-language hosts appear first.
- [ ] Other-language hosts appear automatically when needed.
- [ ] Wallet uses Indian rupees.
- [ ] Add-money flow is available before and during calls.
- [ ] Customer referral code can be added during registration.
- [ ] Customer can share referral code later.
- [ ] Referral status and rewards are visible.
- [ ] Call history, ratings, reports and refunds are included.

Host app

- [ ] Direct-video setting has been removed.
- [ ] Host onboarding explains voice-first call behaviour.
- [ ] Host can accept or reject video requests.
- [ ] Host leaderboard is visible.
- [ ] Current rank and payout percentage are visible.
- [ ] Rank progress is visible.
- [ ] Rank increase and decrease screens are included.
- [ ] Rank increase raises host payout.
- [ ] Host can refer customers.
- [ ] Host can refer other hosts.
- [ ] Referral reward qualification is visible.
- [ ] Host earnings show pending, available, buffer and withdrawable balances.
- [ ] Withdrawal flow includes buffer validation.

Admin website

- [ ] Sidebar includes only Dashboard, Hosts, Payments, Refunds, Reports and Settings.
- [ ] Host applications are managed inside Hosts.
- [ ] Host rankings and leaderboard are managed inside Hosts.
- [ ] Host earnings and withdrawals are managed inside Hosts and Payments.
- [ ] Customer payments are managed inside Payments.
- [ ] Referral rewards are managed inside Payments.
- [ ] Refunds have a dedicated module.
- [ ] Safety, support, referral fraud and ranking abuse are handled inside Reports.
- [ ] Pricing, calls, ranking, referrals, withdrawals, languages and safety are managed inside Settings.

- [ ] Every sensitive admin action requires a reason.
- [ ] Every financial adjustment creates an audit record.
- [ ] Fake referrals and ranking manipulation can be investigated.
